REPORT

ACTIVITY: ADVANCE & SLOW LEARNERS

For the students of B.Sc. III Mathematics, our faculty member Mr. D. M. Mali had organized the diagnostic test to identify the Advance & Slow Learners. The test was organized on 6th Dec. 2021 at 12.00 pm through online mode of 10 marks. All 32 students were present for the test. Out of that, 07 were male & 25 were female Students. After that we have declared the result.

The students having the extraordinary marks are put in Advance learner's category and the students having low marks are put in slow learner's category. We decided to take six students in Advance learner and four students in slow learner's category depending on their performance.

For advance learner students, we had given them different topics for PPT presentation. They have presented their slides in classroom as well as in department on 14/03/2022 & 15/03/2022 in presence of all students.

For slow learner students, we had conducted extra lectures for two weeks from 15th March 2022 to 31st March 2022 and also given the assignments to them. The students have solved the assignments completely and submitted to department.
